

Ad Sparrius has been awarded four degrees—B Sc, B Eng, MSEE, and MBL, and is professor extraordinarius at UNISA's Graduate School for Business Leadership. Ad got involved in system engineering during the late 1970s, and has been passionate about that discipline ever since. Most of South Africa's system engineers had their initial system engineering training with Ad Sparrius—but don't blame him for their successes or failures! His interests include astronomy, especially high-redshift galaxies.
