

Wessel Joubert holds B. Eng (Electronics) (1991), B. Eng (Hons) (Bio Eng and Electronics) (1993) and M. Eng (Engineering Management) (2000) degrees from the University of Pretoria. He is a registered professional engineer with the Engineering Council of South Africa. He started his career in radio network planning, then moved on to lecturing in the bio-medical environment and then to design of electro-optical systems. Much of his career was spent in the defence industry designing hardware and acquisition management of military systems in the electronic warfare and missile domains. He presently holds the position of Programme Manager at Armscor, where he has been responsible for acquisition of missile systems. He has a teenage daughter and loves the outdoors and competing in trailrunning, MTB and triathlon events.
